Audio Cleanup

I will clean up your audio for use in your video, podcast, meditation, or other project. If you're not happy with how your recording sounds, I have tools to make it sound as clean and professional as is possible for the source audio.

\$20 package – 2-day turnaround

0-5 min. of audio in a single file

Reduction of background noise, room echo/reverb, rustles, hums, clicks plosives, sibilance, etc.

Enhance overall sound quality of audio

Master to broadcast standards

Delivery as .mp3 and/or .wav file

Additional options:

Additional length of audio: \$10/5 min. (Over 30 min. total – add one day to turnaround time per 30 min. of audio)

Extra fast delivery (1-day turnaround for under 30 min. of audio): \$20

Custom Music (for podcast, video, meditation, etc.)

I will create custom, original music in almost any style for your project. I play guitar, mandolin, keyboard, am a professional vocalist, and can record and/or program almost any instrumentation you can think of in Logic Pro X. I'm especially suited for ambient/meditative, folky, and pop/rock projects. You'll have the opportunity for revision if it doesn't match your vision.

\$60 package – 4-day turnaround

60 seconds of custom original music to your specifications

Mixed and mastered to broadcast standards

Includes 2 revisions

Delivery as .mp3 and/or .wav file

\$125 package – 6-day turnaround

4 minutes of custom original music to your specifications
Mixed and mastered to broadcast standards

Remote Session Musician

I will record tracks of acoustic guitar, electric guitar, mandolin, and/or vocals (lead and/or background/harmony) for your project. You provide a base track (preferably recorded to a metronome) and I create my tracks for you to mix into your project.

\$40 package – 2-day turnaround

One track of any of the above instruments for your song (up to 4 minutes)

Each layer (rhythm or lead guitar, lead or background vocals) of any of the above instruments is 1 track.

One revision included

Delivery as .wav file (peaking not above -18dB for optimal mixing)

\$100 package – 3-day turnaround

Three tracks of any combination of the above instruments for your song (up to 4 minutes each).

Each layer (rhythm or lead guitar, lead or background vocals) of any of the above instruments is 1 track.

Two revisions included (for entire package, not per track)

Delivery as .wav files (peaking not above -18dB for optimal mixing)

\$175 package – 4-day turnaround

Six tracks of any combination of the above instruments for your song (up to 4 minutes each).

Each layer (rhythm or lead guitar, lead or background vocals) of any of the above instruments is 1 track.

4 revisions included (for entire package, not per track)

Delivery as .wav files (peaking not above -18dB for optimal mixing)

Additional options:

Additional track of any of the above instruments: \$35, 1 additional day

Additional time per track: \$10 per track per extra minute

Additional revisions: \$20 per revision

Production: I can create all needed tracks for your song – see [Remote Song Production](#)

Mixing and/or Mastering: I can professionally mix my tracks in with your existing tracks – see [Song Mixing](#) – and/or master the final mix for release – see [Song Mastering](#).

Remote Song Production

I will produce all tracks of your song (minus the tracks that you want to do yourself). I will record vocals, guitars, and/or mandolin (as appropriate to the song) and program any other instruments necessary to the project, including realistic, great-sounding drum tracks. You provide me with a demo of your song, we talk about your vision for it, and I will set up a base track including a metronome (“click”) to which you and I will each record. I will then provide you with the individual tracks ready for mixing (or can [mix the song myself for an additional fee](#)).

\$150 package – 7-day turnaround*

One song fully produced (up to 5 minutes)

Responsive communication and coordination throughout the process

Your recorded tracks edited, pitch corrected, etc. as needed.

Revisions included throughout the process (within reason!)

Individual tracks delivered as .wav files

* Turnaround time is influenced by your responsiveness throughout the project. Time is an estimate based on quick turnaround from you of your tracks
